- Docker, TravisCI, Git, Heroku
- AWS, GitLab, GitHub Actions

SDLC

- Agile, Scrum, Trello, Waterfall

WORK HISTORY

Back-End Developer   03/2021 - Present
QuickCheck Nigeria   Ilupeju, LG

- Handling full-stack programming tasks for the development of the high-load consuming backend web app using Python, Django, PostgreSQL and JavaScript.
- Integrating with third-party services and external APIs as part of the implementation of specifications from the product team.
- Identification and implementation of the crucial code improvements for both legacy and newly added systems.
- Performing unit & load testing for the data-intensive backend application applying knowledge of pytest and unittest thereby maintaining code coverage of 100%
- Working closely with the product team on scope of future projects and innovations.
- Developing, design and implementation of the new API endpoint as a part of integrations requirement for the mobile application

Software Developer   01/2020 - 03/2021
KingsWay Media   Okota,LG

- Programmed web solutions for clients using HTML, CSS, and Javascript frameworks.
- Providing clear documentation and technical support to the end users of each site.
- Managing the client correspondence, including leading discussions to frame functional and aesthetic needs and preferences specific to each project.
- Worked with various companies and helped them achieve development goals. Played essential roles in the development of high-end web applications using PHP.

Software Developer   10/2018 - 01/2020
Mira Technologies   Ikeja,LG

- Handling full-stack programming tasks for the development of an eCommerce application using OpenCart Framework.
- Developing new and customization of the existing features for internal applications.
- Full Stack development of the website for a hotel.
- Documenting solution architecture for developed applications.
- Participating in peer code reviews for the critical external web app ensuring compliance with the company coding standards.
- Providing technical assistance for the developer team members related to the mission-critical internal web application.
- Developing, design and implementation of the new API endpoints as a part of an eCommerce mobile application..

SIDE PROJECTS

ChuckzOkoye.com   www.chuckzokoye.com
Portfolio

- A web app built using React, Gatsby, Contentful and hosted on Netlify. This project was created as a CV of sorts and an online portfolio.

EDUCATION

- Bachelor of Computer Science. Nnamdi Azikiwe University, Awka, 2014 - 2018.

ADDITIONAL INFORMATION

- English Language: Fluent expertise
- Visa Status: Permanent Resident
